

A woman in a denim jacket and skirt is walking towards the camera, carrying several colorful shopping bags. She is smiling and waving. The background shows a modern building with large glass windows.

Innovative Retail Security Systems

The 20 Range . The Guard Family

Customer-friendly High Security

The GUARD FAMILY

Shopguard delivers the latest in metal and magnet detection for customer friendly retail environments.

ApparelGuard

Customer-friendly Fitting room Security

The most advanced magnet detector in the industry. Detects the use of magnet, not the presence of a magnet. Specific cubicle identified with silent alarm, staff alerts. No visible fitting room entrance security

HyperGuard

Customer-friendly Metal Detection

The most advanced entrance metal detector on the market. Filters specific metals, allows through trollies. Silent/audible alarm option. Slim, attractive antenna aligned with EAS or RFID security antennae.

ApparelGuard

Customer-friendly Fitting room Security

- ApparelGuard utilizes **double detection** to create highly accurate and relevant magnet detection. It focuses on illegal use of magnets to remove RFID or EAS tags within fitting rooms. It does not alarm at magnetized products carried innocently by shoppers.
- Low profile detectors. One per fitting room cubicle.
- One controller can power up to 10 fitting rooms
- Alarm output options: Lights, Pager, Audible Alarm, CCTV or push to EAS via API.

HyperGuard

Customer-friendly Metal Detection

- HyperGuard detects foil-lined booster bags, but uses trolley filter and door filter to eliminate false alarms common with other systems.
- Low profile antenna. Plexiglas. Aligned with existing EAS or RFID antennae.
- Works with all EAS or RFID antenna. Does not require SG EAS systems
- HyperGuard targets the organized theft gangs who bypass EAS and RFID security
- Eliminates x 2 theft v use of RFID or EAS gates alone.

Shopguard Twilight EAS and HyperGuard installation

RFID SECURITY SYSTEMS

European Design . Global Performance

- Store security systems that fit new retail supply chain tagging systems.
- Sleek, visible
- Or hidden, invisible

EAS SECURITY SYSTEMS

European Design . Global Performance

- RF security technology built for performance and design
- Chosen by retailers across the world
- Remote Management Software for full visibility and control

MERCHANDISING SECURITY

European Design . Global Performance

- Proud APPLE partner
- Vendor to SAMSUNG Global
- And to many telco stores globally
